MULTIPLE OPEN-RANK FACULTY POSITIONS

Building upon its commitment to foster an inclusive and more equitable environment and promote the success of underrepresented students, the Department of Bioengineering at the UCLA Henry Samueli School of Engineering and Applied Science invites highly qualified applications for TENURE-TRACK or TENURED faculty positions at Assistant, Associate or Full Professor level. Applicants for the positions must have a demonstrated record of excellence in, and show exceptional promise for, high-quality research, teaching and professional development. In addition, applicants must have a demonstrated record of interest in and commitment to the mentorship of students from underrepresented and underserved populations. The successful candidate will be expected to advance their active mentoring activities and participate in programs that provide research and professional development opportunities for our diverse student body (such as our Center for Excellence in Engineering and Diversity, our Women in Engineering program, the National Society for Black Engineers, Society of Latino Engineers and Scientists, American Indian Science and Engineering Society, and Pilipinos in Engineering and Sciences, and the UCLA Pacific Islander Education and Retention program). Teaching and service expectations will not exceed those of other faculty positions.

The Department seeks candidates with a Ph.D. in Bioengineering or related field with excellent track record of innovation, and exceptional potential to direct a world class, highly collaborative research program in the broad areas of bioengineering, including, but not limited to: molecular, cellular and tissue engineering, biomedical devices and instrumentation, biomedical imaging, and biomedical data sciences. With the close collaboration with the David Geffen School of Medicine and many other disciplines on campus, there are tremendous opportunities to develop interdisciplinary collaborations and innovative technologies to address medical needs. Candidates should be highly qualified to instruct in our core graduate and undergraduate bioengineering educational curricula, and are committed to teaching/mentoring students of diverse ethnic and cultural background.

The application packet should contain the following documents: 1) curriculum vitae, 2) statement of contributions to equity, diversity, and inclusion with particular attention to mentoring achievements and future mentoring goals, 3) statement of research interest, 4) statement of teaching interest, 5) a cover letter, and 6) 3 Key Publications.

- All applicants should provide names and contact information for at least three references. Applicants for the Assistant Professor level should also arrange for recommendation letters to be sent from at least three references.

Applications should be submitted via the UCLA Academic Recruit System at: https://recruit.apo.ucla.edu/apply/JPF05844. Review of applications will start on **November 1, 2020** and keep going until all positions are filled.

Inquiries about the position and nominations of potential candidates should be directed to the search committee chair, xxx (xxx@ucla.edu).

Los Angeles is a global city renowned for its dynamism, robust economy, rich cultural diversity, and spectacular climate. UCLA was continuously ranked as the #1 public university since 2018 in the nation by U.S. News & World report, and is consistently ranked in the top 10 among U.S. public engineering schools. The QS USA Ranking 2020 placed UCLA the # 6 among all the national universities. The 2020 Best Global University Rankings by U.S. News & World Report placed UCLA the 14th in the world. The 2020 Times Higher Education World University Rankings placed UCLA the 9th in the world by subject: Engineering and Technology. The school's online master's program is ranked No. 1 by U.S. News & World Report. UCLA Samueli includes more than 6000 undergraduate and graduate students and 190 full-time faculty members and is in the midst of its largest growth since the school was founded. Established in 1945, UCLA Samueli is known as the birthplace of the internet, and where countless other fields took some of their first steps – from artificial intelligence to reverse osmosis, from mobile communications to human prosthetics. UCLA Samueli is deeply committed to diversifying the ranks of its faculty, staff and students, and to providing an equitable and inclusive environment for all its members.
