

## Rotation Form

Please fill out the Rotation Form at the beginning of each quarter, which will be approved by you and the faculty member whose lab you are rotating in for that quarter. Please submit a copy of the form to the BE SAO and keep the original form to obtain additional signatures every quarter.

Note that when you match with a faculty advisor (or rotate for more than 1 quarter in a single lab during the first year) you will transition to being funded by your faculty advisor. Please discuss this with your faculty advisor. Your advisor may fund you as a graduate student researcher (GSR). Please start to reach out to faculty members to secure your first rotation as soon as possible.
